Premier Poincare Delivers An Important Address.

EUROPEAN CRISIS HIS THEME

Foolhardy to Indulge In Prophecies Regarding Future Developments, He Declares In a Statement to the Committee on Foreign Relations of the Chamber of Deputies—Greece Standing Out.

Paris, Dec. 6.—That France in the present European crisis is working side by side with her ally, Russia, and her friend, England, stands out clearly in the important address delivered by Premier Poincare to the committee on foreign affairs of the chamber of deputes.

The French premier spoke some plain words on the European situation when he said to the committee: "We stand by our allies and our friendships."

M. Poincare was enthusiastically applauded by his hearers for having constantly labored for the "moral patrimony of France."

In his references to the future the premier said evidence pointed to a settlement of pending difficulties, but declared it was difficult to speak of the future and said it would be foolhardy to indulge in prophecies.

M. Poincare reviewed the war and indicated that the difficult problems would be solved at the London conferences, and expressed the hope that Turkey would speedily recover her prosperity.

He said it would be necessary to determine what part of the Turkish

President Elect Wilson and The Next "White House Baby"

Copyright by Pach Bros., New York.

OF course you know all about the next occupant of the White House, but do you know about the next White House baby? Here are both—President Elect Woodrow Wilson and his little grandniece, Josephine Cothran. They are the best of pals and they are going to spend four merry Christmases in the first home of the land. Governor Wilson has invited Mrs. George Cothran, his only sister's child, to live with him at the White House, and that is how little Josephine is going to become the next White House baby and make light the heart of the next president.

SWEET THINGS ESCAPE SUIT BY UNCLE SAM

Indictment Quashed on Motion of Federal District Attorney.

WICKERSHAM APPROVES MOVE

Government Unable, According to the Attorneys, to Prove Any Affirmative Acts by Any of the Defendants at Any Time Within Three Years Prior to Date When Indictment Was Returned.

New York, Dec. 6.—On motion of United States Attorney Wise, Judge Hough in the federal district court quashed the indictment against the American Sugar Refining company; John B. Parsons, the octogenarian attorney for the sugar trust; Washington B. Thomas, George H. Frazier, Arthur Donner, John Mayer, Charles K. Senff, Gustave E. Kissel and Thomas B. Harned.

Attorney Wise's motion was made at the suggestion and with the approval of Attorney General Wickersham. Mr. Wise's reasons for asking the dismissal of the indictment were: That the government was unable to prove any affirmative acts by any of the defendants at any time within three years prior to the date when the indictment was returned; that the jurors who sat through the first trial had disagreed as to a verdict because of the obvious applicability of the statute of limitations to the case; that John B. Parsons is 84 years old, and that all the living defendants are well advanced in years.

Since the indictment charging conspiracy in restraint of trade and interstate commerce was handed down July 1, 1909, two of the defendants, Charles H. Senff and Gustave E. Kissel, have died; Thomas B. Harned was granted immunity by turning witness for the government.

The specific violation of the Sherman law alleged in the indictment was acquisition by the American Sugar Refining company of the Pennsylvania Sugar Refining company in Philadelphia and the subsequent closing of that plant. It was further alleged that the control of the Philadelphia concern was secured through the medium of a \$1,500,000 loan made by the American company to Anton Segal, the president of the Pennsylvania Sugar Refining company.

On March 12, 1912, a jury in the criminal branch of the United States district court in this city, after 13 hours of deliberation, announced that it was not able to agree on a verdict and was discharged from further service in the trial of the defendants. The last ballot taken by the jurors stood 11 to 1 for acquittal.

MEYERS FOR GREATER NAVY

Pleads For Three Big Battleships This Year.

Washington, Dec. 6.—The United States must have a bigger navy and must be prepared to meet any chance of war, in the opinion of Secretary Meyer of the navy department, if it is to preserve its national safety. In his annual report Secretary Meyer pleads for three new battleships this year, and declares that this country soon will fall from second to fourth place in the relative standing of naval powers, if it continues the policy of building only two ships each year. He also urges complete aeroplane equipment.

LEAVES DOLLAR TO WIFE.

New York, Dec. 6.—Charles A. Eberhardt, who died on Nov. 7, left only \$1 to his wife, Lucy, accompanying his bequest with the following: "I make this bequest in this manner in full settlement of what I consider my duty and obligation to her, with the full realization of her conduct and dealings toward me while under the obligations and duty of a wife." The chief legatees are the testator's children.

WHY, OTIS SHAME ON YOU FOR SURE!

Charges Otis Skinner, Actor, With Pinching Her Arm.

Cincinnati, O., Dec. 6.—Miss Molly Quinn, an extra actress recently employed by the "Kismet" company at the Grand opera house, filed suit in common pleas court asking \$5,000 damages from Otis Skinner, star of "Kismet," charging him with pinching her arm.

Skinner takes the part of Hajj, an Arabian beggar, who does all sorts of whimsical things in the play. In addition to pinching her, Miss Quinn's petition mentions assault and beating, but Attorney H. B. Webber, the girl's lawyer, explained that particular stress was laid upon the alleged pinching. Miss Quinn is 29 and lives here.

Skinner at the Sinton hotel scoffed at the seriousness of the charges. "Hajj may be a vagabond," said he, "but I hope he is a gentleman," to which he added: "I never heard of such a thing. Pinching girls is ridiculous. I certainly don't recall such an incident."

Miss Quinn says her arm that was pinched was so badly swollen that she had to visit a physician twice.

OHIO NEEDS BLUE SKY LAW

Legislation Urged to Regulate the Sale of Securities.

Columbus, O., Dec. 6.—Frank E. Baxter, state superintendent of banks and banking, in his annual report to the governor urgently recommends legislation to regulate the sale of securities. He refers to the "extent to which the people of this state are being swindled by the get-rich vendor of alluring but otherwise deficient securities."

Authority for regulation is given under the new constitution. Ohio has great need of a "blue sky" law, Mr. Baxter thinks. The laws of other states on this subject should be studied, he says, and Ohio should not adopt a measure that will suit her own peculiar needs.

EAT AND DELIBERATE

Jury of Women Find One of Their Own Sex Guilty.

Twin Falls, Idaho, Dec. 6.—The first jury of women in Idaho found one of their own sex guilty of threatening a man with a revolver, but recommended her to the mercy of the court. The defendant, Mrs. Edward Butts, was on trial, charged with drawing a weapon on Arthur Requa. The hearing was adjourned while the jurors prepared the midday meal for their families, and when the evidence was in they reached their verdict in less than one hour.

Another Outbreak by Blease.

Richmond, Va., Dec. 6.—Many women in attendance on the governors' conference hurriedly left the hall when Governor Cole L. Blease of South Carolina, for the second time defending his doctrine of lynching negroes guilty of criminal assault, without a trial, shouted the words, "To hell with the constitution."

PUJO PROBE IN THE STOCK

Directors to Appear Before Investigating Committee.

SUBPENAS ALREADY SERVED

Brokers Apparently Not Much Worried by the Utterances of Chairman Pujo Against Stock Exchange Clearing Houses—Large Floor Trader, However, Sells Seat in New York Exchange at a Sacrifice.

New York, Dec. 6.—Several members of the board of governors of the stock exchange, including J. B. Maben, president of the exchange, have been subpoenaed to appear before the Pujo money trust investigating committee when it meets next week in Washington. George W. Ely, secretary of the exchange, has also been subpoenaed.

The line of investigations will take at Washington is suggested in the subpoena summoning Perley Morse as a witness. Mr. Morse is a certified accountant, whose reports in the transactions of the Hocking pool failed to influence James R. Keene to pay \$400,000 to the banking and brokerage houses that were caught in the smashup. Mr. Morse is directed to take to Washington for the investigation his report in the bankruptcy of J. M. Fiske & Company and all the agreements at the time of the pool between James R. Keene and the several firms he did business with, Lothrop Perkins & Company, Robert Hall & Criss, J. M. Fiske & Company, Bishop, Laimber & Company, Wagner Dickinson & Company, Tucker Anthony & Company, Van Scheick & Company and Atwood, Violet & Company.

Chairman Pujo's utterances in Washington against stock exchanges and clearing houses and his purpose to try to exclude them from the use of the mails until reformed, did not appear to cause much worry to brokers. The present condition of the market, however, was reflected rather strikingly when it was announced that Charles B. McDonald, one of the largest floor traders on the exchange, had sold his seat for \$58,000, which is the lowest price at which a seat has sold for since 1908, when the market was beginning to recover from the panic troubles of the year before. It was a drop of \$7,000 from the price at which the last sale of a seat was made, about 10 days ago. Two weeks ago the price of seats sold was \$73,000.

FOR TAXPAYERS' BENEFIT

Stimson Would Harness the Waters of the Mississippi.

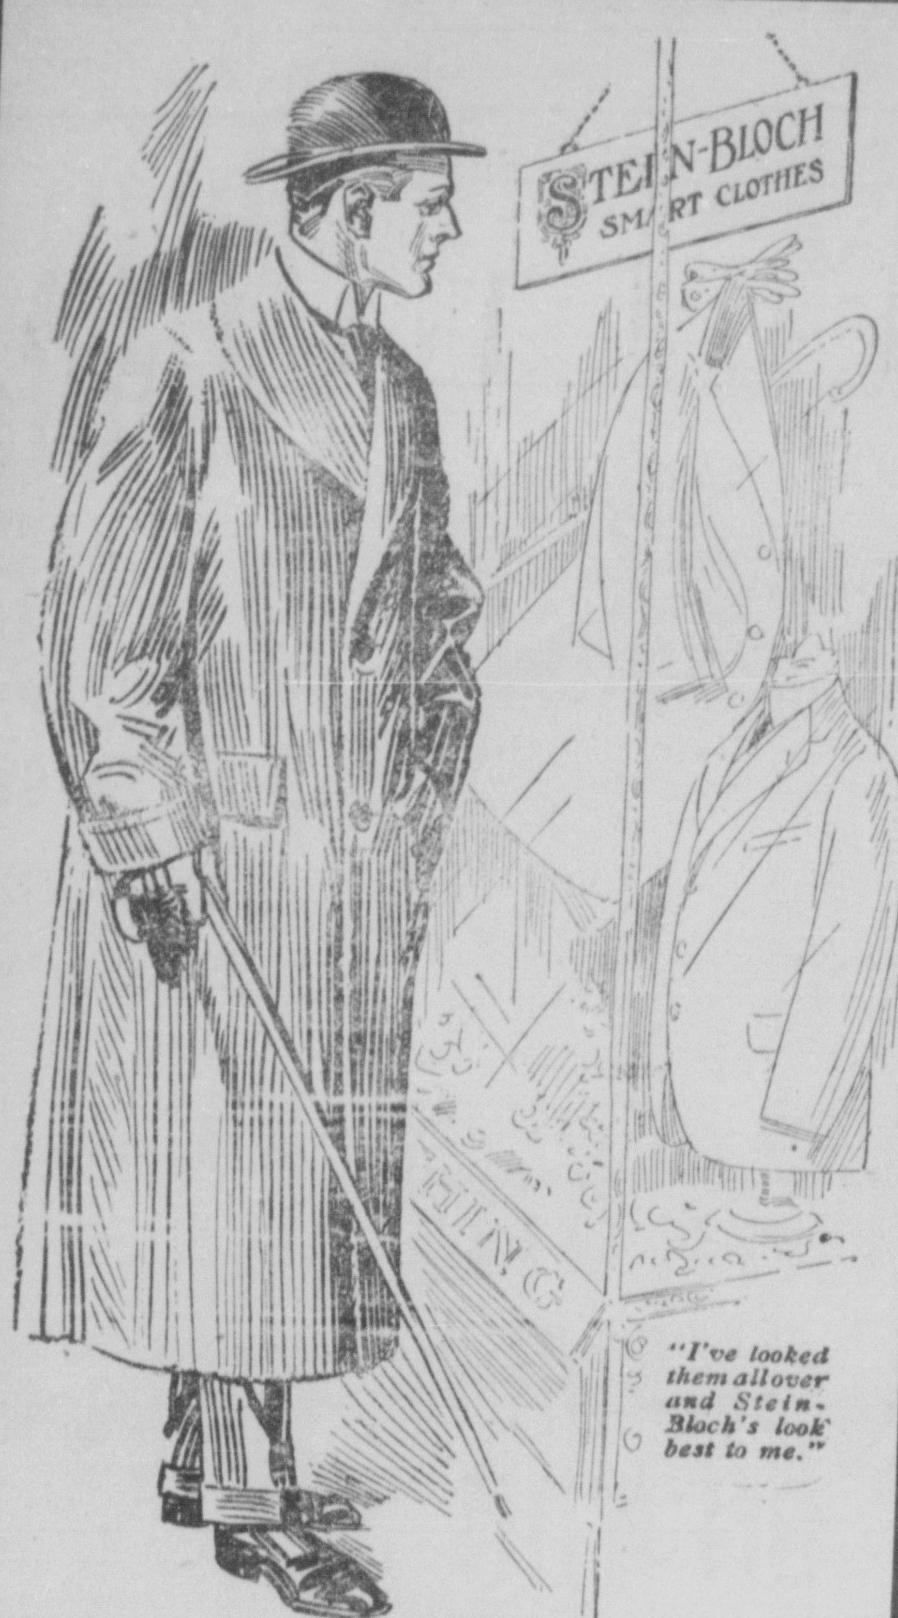

Washington, Dec. 6.—"Harness the Mississippi river and make the water power development pay for the expenditure of improving the river," was the gist of the message brought by Secretary of War Stimson to the rivers and harbors congress. Secretary Stimson declared that when the association assumed the responsibility as great as that of spending \$50,000,000 for improving a river, the general taxpayers of the country should get the benefit of the incidental profits arising.

Columbus, O., Dec. 6.—Mrs. Lee Turney of this city, in a Boston court, identified Robert Keppler, an evangelist of Columbus, who was arrested at Boston a few days ago as the man who had enticed her daughter, Stella Turney, 13, away from her home early last March. Keppler now faces four charges in Boston. Following his preliminary arraignment, he was held for the grand jury under a bond of \$4,500, which he has been unable to secure.

Nazim Pasha Back In Cabinet.

Vance Found Guilty Of Resisting Officers

Two hours after the case had gone to the jury Friday, a verdict of guilty of unlawfully resisting an officer was returned against Elmer Vance in the case of Ohio against Vance.

Gregg & Gregg prosecuted the case and C. A. Reid was attorney for the defendant.

The trial commenced Wednesday, and both sides worked hard to bring out all of the evidence for their respective sides. Attorney Reid made one of the best pleas for his client ever heard in the court room, but his efforts were of no avail, and the

jury returned a verdict of guilty Friday afternoon as above mentioned.

The case grew out of a raid made last June by Deputy Game Wardens C. C. Action and H. Poppendick, the former taking to his heels when the Vance family surrounded his companion and flourished guns and other deadly weapons, forcing him to leave the premises.

The style of the case was Ohio against H. H. Vance, Elmer Vance, Mrs. Minnie Vance, Malley Vance, Nina Vance and Ray Vance, who were jointly indicted on the charge. Sentence will be passed later.

Special Offer Proves Winner

The manner in which the subscriptions for The Herald have been rolling into the office the past few days is unmistakable evidence of the popularity of the special Bargain offer for the months of December and January, during which time subscriptions for the mail edition will be taken for The Herald for one year and a copy of the famous Hicks' Almanac given for \$2.25.

One man brought in SEVEN new subscribers, representing a couple of hours' work on his part, and when he left he stated that he would be back with ten to a score of new ones.

Others have brought in or forwarded by mail smaller numbers of subscribers, with the promise of large numbers to follow. All report the citizens of Fayette county greatly pleased with the liberal offer.

Bloomingburg Wins the Game

The regular Basket Ball team of Bloomingburg, play a picked-up team at the Y. M. C. A. gym. Thursday night, which resulted in the visiting team winning the game, 28 to 14.

The Bloomingburg team did some good playing, with Jefferson in the lead, and considering the little practice of the local team, together with the fact that they were merely gathered up from among those who have been practicing at the gym, they played an excellent game.

With a little practice the boys demonstrated that they would be able to take care of themselves and eventually become exceptionally good in the game.

OBITUARY.

Byron Looker was born on the nineteenth day of October, 1868, and departed this life on the first day of December, 1912, at the age of 44 years, 1 month and 21 days.

He was the eldest son of Levi and Rebecca Looker and was born near West Jefferson, O.

After the death of his father he called the home of his brother, Howard, his home, although he spent much time with other friends.

Byron was seemingly in good health until some days ago he was taken seriously ill and was taken to the Protestant hospital at Columbus, Ohio.

His friends watched by his side, and all that human skill could do to save his life was done by doctors and nurses. But we bow our hearts in submission and say, "Not my will, O Lord, but Thine, be done."

He was brought up under the influence of Christian parents and early in life identified himself with the Methodist church at Union chapel. His life has been an unassuming one, quiet, but he was ever ready to testify for the blessed master, and seemed to enjoy the blessings that await those who seek them.

He was a member of the local lodge of Knights of Pythias, the brothers of which order recognizing his virtues feel that just God will extend to him that mercy which the order teaches.

He will be held in remembrance by all who knew him as a kind, generous hearted man.

CABINET MAKERS.

Fulfilling the general expectation, there has been no end of speculation as to the make-up of President-elect Wilson's cabinet. Mr. Wilson has been showered with suggestions and remonstrances in advance of any action to an extent perhaps never surpassed.

Naturally enough most of the speculation and most of the interest has centered about the selection of a secretary of state. That official is regarded as the premier of the administration—the right arm of the President. It is regarded as the post of honor in the public esteem as well as in reality the position carrying with it the most power and entailing the greatest responsibility.

The secretary of state must, in order that the administration be harmonious and effective, be in thorough accord with the president on all matters of politics and governmental policy.

To a certainty the Secretary of State does more than any other cabinet officer to characterize the policy of the administration and in that respect his authority and his responsibility is scarcely second to the president himself.

More than that the selection of a Secretary of State by the newly elected President is in itself a strong factor in stamping the administration with the character which thenceforth will remain.

In view therefore of the political history of this nation during the last twenty years, in view of the history of the Baltimore convention, the campaign which led up to that convention and the campaign which followed its close and the conspicuous part Mr. Bryan played in each one of those events, it is but natural that Mr. Bryan should be the man most earnestly urged by his adherents and most bitterly opposed by those who are not in accord with him, as the premier of the incoming administration.

Mr. Wilson can do nothing which will more effectually stamp his administration at its very outset with the seal of popular approval than to name Mr. Bryan as Secretary of State. Mr. Bryan's place in the estimation of the people of this country is fixed. Many may disagree with his political ideas—and that many are now deluging the president-elect with letters protesting against Mr. Bryan's appointment.

Mr. Bryan is clean politically and his personal character is spotless. He made history at Baltimore and easily proved himself to be the leader of his party. He demonstrated there in a manner which left no room for doubt that he is above machine politics and machine politicians, and in that respect as in many others, Mr. Bryan and Mr. Wilson stand shoulder to shoulder.

The president-elect is known to be in perfect harmony with Mr. Bryan's political methods and ideals and it is not at all probable that he will harken to the objections of those whom he and Mr. Bryan overthrew at Baltimore.

Mr. Bryan would be a host for good, sitting at the right hand of the President during the four years following the inauguration of Woodrow Wilson as President of the United States.

Ladies, if You Want to Live Long, Work!

By Miss VILLA FAULKNER PAGE, Lecturer and Writer

MODERN WOMAN IS DYING BECAUSE THE LIFE IN HER IS BECOMING STAGNANT FOR WANT OF REAL WORK. SHE OUGHT TO GET DOWN AND SCRUB THE FLOOR, DO HER OWN WASHING, IRONING AND GENERAL HOUSEWORK IN ORDER BETTER TO ENJOY LIFE. SHE OUGHT TO THINK FOR HERSELF ALSO INSTEAD OF RUNNING TO LIBRARIES TO GET OUT A BOOK AND FIND OUT WHAT SOME ONE ELSE HAS THOUGHT.

* * *

I know what I'm talking about when I urge women to work with their hands and work hard. For six years I was connected with a sanitarium for nervous invalids. The head physician and myself both came to the conclusion that what sent most of our women patients to us was not too much, but TOO LITTLE, WORK.

Of course I know there are many poor women who are overburdened and worn out with domestic drudgery. It's one thing to keep one's own floors clean and quite another to spend twelve or fifteen hours out of the twenty-four for six days in a week with the scrubbing brush in one's hand.

But in general I think we WASTE TOO MUCH PITY on the man or woman who performs manual labor. For what else was one given muscular energy? If this energy is not worked off in some way it wastes itself in furious nervous vibrations within the body, and ILL HEALTH IS BOUND TO RESULT.

Poetry For Today

WHAT GO YE FORTH TO DO?
What go ye forth to do?
To labor till the sun goes down
For hoard of gold or fair renown?
To rend and tear your brother's heart
And fill his life with ache and smart
That ye may build the thing Success
Upon your own grim selfishness?

What go ye forth to do?
To gather gold, no matter how?
To claim the laurel for your brow,
Despite the weaker things you crush
Beneath your heedless, onward rush?
Fearful of only battles lost,
And winning at whatever cost?

What go ye forth to do?
To smooth life's rough and rugged
way?
For those who follow you or may?
To toll, but not alone for gain.
For glories that you may attain,
But for the Master's perfect plan
Also to serve your fellow man?

What go ye forth to do?
To cheer the faltering and afraid,
To give the weaker brother aid?
To try to win, but to disdain?
To stoop to what is wrong for gain?
To strive for what men call success
But show no trace of selfishness?

Nervous Troubles Drive Away Happiness

Tona Vita Will Quickly Drive Away The Nervous Troubles.

If you are one of the many Americans who are suffering with nervous breakdown or nerve exhaustion, you can get back your old health and spirits in a few weeks' time. Go to your druggist and obtain a bottle of Tona Vita. This remarkable tonic is helping thousands back to health and it will not fail in your case. In fact, it never fails. State Board to Probe Deaths

(Continued from Page One.)

Members expressed the opinion that the whipping did not cause the pneumonia. The boy was said to be improved. His mother is in Lancaster.

One hundred and seven boys of the Lancaster Industrial school were paroled yesterday by the state board of administration. A majority of the paroles will become effective before Christmas, thus enabling the boys to spend the holiday at home. Some, however, do not become effective until February.

Gives Greenfield New High School

Mr. E. L. McClain, of the Greenfield Pad factory, has just purchased a large tract of ground adjoining the present school buildings in that town and has announced his intention of erecting a magnificent high school building upon it, commencing next spring, and giving the entire property to the town without charge.

The ground was purchased at great expense, and Mr. McClain intends erecting a modern High school building that will be a monument to his generosity many years to come.

Three more suits for judgment on cognovit notes have been filed in the Common Pleas court.

The first is that of the P. & D. bank against W. J. Carr et al., for the sum of \$200 with interest from August 29, 1912. Judgment for \$204.22 was taken.

The P. & D. bank against J. M. McCoy, et al., for the sum of \$247.74 is the second case, and judgment was returned for the sum.

In the third case, Harper & Harper and Humphrey Jones bring action against Oscar Kellhofer and others for \$219.31, alleged to be due on a promissory note. Judgment was taken in the sum of \$219.31.

OHIO HAPPENINGS

Six Druggists Indicted.

Columbus, O., Dec. 6.—The federal grand jury, after having considered 22 cases in three days, reported 18 indictments, three of which were secret. Among those indicted are six druggists, accused of improper use of the mails in sending or recommending rubber articles for improper purposes. They are: Dr. Charles F. Hatton of Columbus, who was indicted on two counts; William H. Styer, Ray M. Beagle and Fred H. Curtis of Marietta; Robert C. Henderson of Steubenville and Harrison H. Hicklinbotham of near Mt. Vernon.

Result of Suicide Pact.

Marion, O., Dec. 6.—Coroner W. H. Hinklin expressed the belief that an autopsy which will be performed on the bodies of Harry Houseworth, 18, and Mrs. Bertha McNamara, 26, found dead here at the home of Benjamin Houseworth, the boy's brother, will show that the two met death as a result of a suicide pact. The Benjamin Houseworth family was away from home.

State Probes Dresden Wreck.
Columbus, O., Dec. 6.—John C. Sulivan, member of the public service commission, and O. F. McJunkin, one of the inspectors, returned from Dresden, where they made an inspection of the wreck in which 11 lives were lost. The investigation was only preliminary to a more general and thorough one which will be made by the full commission within a few days.

Killed Sweetheart; Gets Life.

Cleveland, O., Dec. 6.—Pleading guilty to second degree murder for killing his sweetheart, Matilda Mayzek, 14, Oct. 17, Gabriel Nagy, 23, was sentenced to life imprisonment in the penitentiary. Nagy said he and his sweetheart had a death pact, but that he was prevented from committing suicide by the girl's father, whom he wounded.

Pensions For College Presidents.

Springfield, O., Dec. 6.—Before the educators at the national Lutheran missionary conference here President Charles G. Heckert of Wittenberg college, in welcoming the delegates, declared that they should take up the project of pensioning all presidents of church institutions. He said their compensation is insufficient.

Teacher Drops Dead.

Dennison, O., Dec. 5.—Miss Pearl Casteele, 19, school teacher at Port Washington, near here, had just finished hearing a class recite arithmetic when she tottered and fell over dead. The children, panic-stricken, ran two miles to the young woman's home, where her mother was informed.

Claim Their Agent Did Not Make Good

The American Remedy Company, of Tiffin, Ohio, has filed suit in Common Pleas court against William Reif and his two sureties, Frank Reif and Oscar McLellan, in which the defendant, William Reif, is charged with failing to pay the plaintiff some \$244.23 for goods shipped him as their agent.

The plaintiff charges that on November 21, 1911, the defendant entered into a written contract, a copy of which is attached to the petition, in which the defendant was to sell the goods of the plaintiff and remit in cash at the end of each week. William Reif, they allege, secured the other two defendants to guarantee the company against loss, and they were to be released at any time upon payment of the amount due from Wm. Reif.

On Feb. 18, 1912, the defendant

is alleged to have quit the work as agent for the American Remedy Co., and while owing the concern \$244.23 and that the amount is not yet paid.

The plaintiff asks that judgment for the amount, together with interest from July 12, 1912, be paid. Post & Reid are attorneys for the plaintiff.

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Compound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. Mrs. N. C. Young, Pesah, Ga., says: "Foley's Honey and Tar Compound completely cleared my throat and cured my cold." 321 Autos In County

62,850 Machines in the State
and 990,708 in United States.
245 Autos in Washington Alone.
Nearly 50 Different Makes of
Machines Are in the County.

Fayette county now has 321 automobiles, or a gain of over 200 per cent. in less than two years' time. Of the number 245 are listed as being in Washington, 25 in Jeffersonville and 19 in Bloomingburg. However some of the machines are owned by persons who live outside the limits of the three places, but secure their mail through the postoffices from the town in which they are included.

Of the 321 machines in the county, there are at least 46 different kinds, or makes.

At an average cost of \$800, the machines in Fayette county would represent a total cost of \$856,800, or over a quarter of million dollars invested in autos in this county alone.

Ohio now stands third in the list of states in point of autos owned, and figures show that there are now 62,850 registered cars in Ohio. New York leads with 102,870, while California is second with 83,278. The figures show that there are now 990,738 automobiles owned in the United States, and they cost \$188,885,600.

While Ohio has a tremendous number of cars, the per capita distribution is not as heavy here as in other states, the figures show. In California one person out of every twenty-eight owns an auto, while in Ohio there is but one machine to every seventy-five people.

The Buckeye state is rapidly forging to the front in the manufacture of cars. Revised statistics show that there are 257 separate auto manufacturing plants in this country, several of these manufacturing a variety of cars. Of this number 68 are located in Ohio, placing it third in the list of manufacturing states. Michigan and New York have more factories, while Indiana comes next in importance as a manufacturing state. Registrar Shearer's figures show that there are now 932 auto garages scattered through the state, and that there are 16,703 in the country. New York, Illinois, Pennsylvania and California have more garages than Ohio. West Virginia is just getting the "auto fever" going through the stage which Ohio passed eight years ago. The collected statistics show that in the present year the number of registered machines in the Mountain state has increased 148 per cent. In Ohio the increase was 39 per cent.

Liszt, the composer, is said to have abandoned the habit of smoking as a result of a misunderstanding with the Italian customs authorities. He was accustomed to smoke one cigar a day and on a journey to Rome had one cigar for each day of his stay in the Holy City placed in his trunk. On being asked at the frontier if he had any tobacco to declare he, absentmindedly, shook his head. When the trunk was examined nearly a hundred cigars were found. These were confiscated and their owner fined 500 francs. As a result of this experience Liszt made a vow never to smoke again.

This holds as good in the appearance of a sign as in the appearance of the man. What would you think of a slovenly salesman approaching you? Would he get your attention as readily as a bright, clean looking salesman? Your answer must be "No".

Just so with your sign. If it is a dilapidated, poor and cheap looking sign it will not attract customers like a good, clean and attractive sign will. It is human nature to judge the appearance of the inside by that of the outside. Lately a fad has struck the merchants to place their signs on top of show windows where they do little or no good in attracting the public. Such signs are of no value to the merchant. Signs to be of value should be placed in such a position that when a person walks along the streets he will be attracted by them. The proper height is in the direct line of vision of the eye, not elevated so that it requires a star gazer to see them.

To secure attractive signs, always have them painted. Paper letters get discolored, and when cleaning windows ragged edges and torn letters cannot be avoided. One season is about the life of them. The so-called brilliant letters of metal and gilded, if exposed to the air will turn black and, being made of metal, cannot be made to stay on, expansion and contraction is continually affecting them. A white enamel letter is no better than a paper letter. There are no paper or metal signs made that will hold on glass.

Yours truly,

BURNETT, THE SIGN MAN,

Citz. phone 1346.

The hours we pass with happy prospects in view are more pleasing than those crowned with fruitless—Goldsmith.

HEADACHE?—IT'S YOUR LIVER.

Too Many People Take Headache Powders When a Liver Tonic Is Needed.

Try Olive Tablets—the Substitute for Calomel.

Anyone who takes Dr. Edwards' Olive Tablets the moment he suspects his liver or bowels, will never have headache.

There is no necessity, when you take Olive Tablets, of following them up with nasty, sickening, griping salts or castor oil, as you should after taking calomel.

Olive Tablets do not contain calomel or any other metallic drugs; they are a purely vegetable compound mixed with olive oil, sugar-coated, easy to take, and never gripe or cause weakness.

Thousands of people take one every night at bedtime just to prevent disorder of the liver, constipation, bad breath, pimples, headache, etc.

Dr. Edwards, calomel's old enemy, discovered the formula for Olive Tablets after seventeen years of practice among patients afflicted with liver and bowel troubles.

Try them for a week. Take one on retiring nightly.

"Every little Olive Tablet has a movement all its own." 10c and 25c per box.

Carlyle's Influence.

Thomas Carlyle, "the sage of Chelsea," died without winning much personal popularity, a fact, however, which is forgotten in admiration of his genius. Carlyle exerted a greater influence on British literature during the middle of the nineteenth century and on the religious and political beliefs of his time than possibly any other British writer. He never wrote a line that he did not believe, and in regard to style he certainly had no superior. From the position of schoolmaster in an obscure village this great Scotsman rose to be a leader in the world of letters.—London Graphic.

Circleville Council After Water Company

The Circleville Water company has failed to live up to its contract in much the same manner as charged against the local Water company.

This is the charge of the Circleville City council makes against the Water company of that place, and some radical changes must be made without delay.

The Council has been after the Water company for some time, but at the recent big fire in Circleville it was demonstrated so clearly that there was something wrong with the system and an investigation was ordered.

France Will Stand Firm With Allies

(Continued from Page One.)

debt should be taken over by the Balkan states, and added that France probably would arrange special conventions with the allies for protection of the extensive French interests in the conquered territories.

Greece Still Standing Out.
London, Dec. 6.—Greece is still standing out from the armistice, but it is explained both from Sofia and Athens that this separate action is undertaken in agreement with the allies, in order to prevent Turkey from profiting from the armistice to improve her military position. An unconfirmed report from Athens says the Greeks are continuing their operations against Janina, but elsewhere orders have been received to cease hostilities.

Naval Battle Likely.
Constantinople, Dec. 6.—The Turkish fleet is now concentrating in the Dardanelles. This is being done, it is explained, because of the decision of the government to order the fleet to engage the Greek squadron in the Aegean sea. There is skepticism here, however, as to the probability of a naval battle.

SHOUT AND USE HATPINS
Suffragettes Break Up a Meeting of University Students.

London, Dec. 6.—A dozen suffragettes were arrested for breaking up a meeting of university students at Glasgow to listen to a speech by Irish Secretary Birrell. Twenty-five women in a gallery burst into a chorus of shrieks of "Votes for women." Hundreds of students made a rush for the disturbers. Several women were roughly handled. A number of students suffered severe hatpin stabs.

Confessed Grafters Fined.
Greenville, O., Dec. 6.—Fred Ambaugh, former county commissioner, pleaded guilty to 13 indictments of misdemeanor and misconduct in office. He was fined \$50 and costs in each of the 13 cases. Harvey Manning, contractor, pleaded guilty of misdemeanor and was fined \$25 and costs. William Hayes, former janitor of the courthouse, pleaded guilty to two charges of presenting false and fraudulent vouchers and was fined \$250 and costs in each case and given 10 days' jail sentence. He stands committed until he pays the fine and costs.
